## Construction Alert: Week of February 2, 2026

Lane closures planned on S. Palm Canyon Drive on Friday, Feb. 6, plan for delays.

Gasline work complete, bridge construction continues.

### TRAFFIC IMPACTS

Friday, Feb. 6 | 7 a.m. to 3:30 p.m.

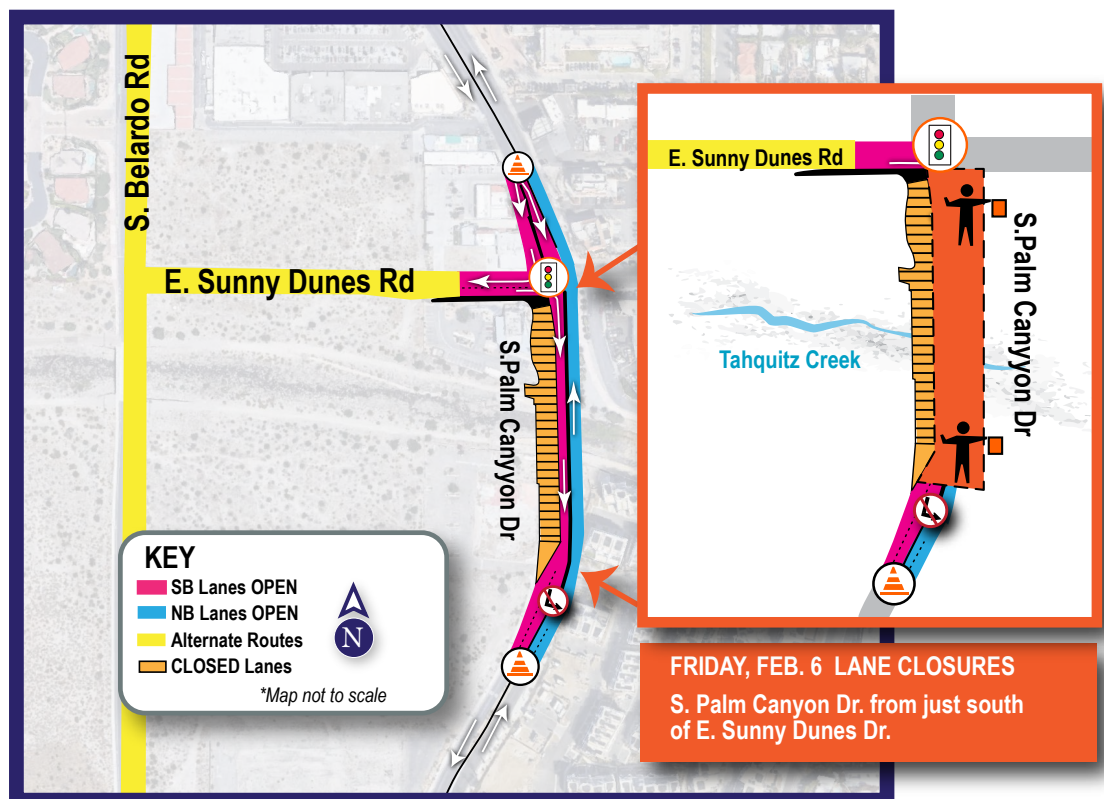

Lane closures are planned on S. Palm Canyon Drive from just south of E. Sunny Dunes Drive to just south of the bridge. Crews will place the base layer of asphalt over the completed gas line work.

Flaggers will assist motorists through the construction area, one lane at a time.

The closures are necessary to place the base layer of asphalt over the completed gas line work.

Please use alternate routes and allow extra travel time.

### LOOKING AHEAD

Work continues to complete the first half of the bridge in preparation for the Traffic Flip in late February 2026. The Traffic Flip will move traffic onto the new western bridge span for construction to begin on the eastern side of bridge.
